1 to 2 - This is a suggested course per C/Os instruction. Would like to point out that "Refresher" would probably be a misnomer in that prospective students have been away from instruction admittedly, since 1954. Also we see no good in blocking out an hour by hour schedule until the PMD + [REDACTED] have outlined general course content. We feel it is however, a point of departure for formal discussion and suggest a gathering here in the near future. Student body + length of course are optimistic desires here. *dfj*
